

Softcare Composite Deck protection 500 ml

EFFECTIVE PROTECTION FOR COMPOSITE DECK AND PLASTIC SURFACES

Softcare The Softcare Composite Deck protection is an efficient water-based protection for composite structures and other porous plastics, such as outdoor furniture. Protected patios and furniture remain clean, easy to care, and easy to clean for a long time.

Instructions: Shake the bottle before use. Spray the protection onto a clean and dry surface, approximately 1 dl/m². When working outdoors, ensure that the weather is dry, and leave to dry for 24 hours. Direct sunlight hastens the process. Store in a dry place, away from direct light. Do not let freeze.
