

Softcare Carpet Protector 300 ml

Softcare Carpet Protector – a carpet protector for all types of carpets that is safe and easy to use. Suitable for all kinds of carpets from wool to silk, coconut, jute and paper yarn carpets and fur rugs. Also suitable for protection of thick textiles, e.g. rugs. Gives the carpet a dirt-repellent surface. The dirt is easily removed from the treated surface and permanent stains do not occur. The detergent does not change the carpet's feel, colour or air permeability.

Does not contain PFOS or PFOA compounds. One bottle is enough to protect 3-4 m² depending on the thickness of the carpet. Spray on the carpet's surface from a distance of about 15 cm and let dry. Ensure good ventilation. The protection will last for 2-3 years in normal use. If you are not sure of the carpet material or the colour durability, try product first on an invisible place. Not suitable for faux leather or plastic.
