

Softcare Leather Care Kit

The small leather care kit contains a 120 ml bottle Leather Cleaner and a 120 ml bottle Leather Balsam. The protective wax keeps your leather furniture soft and beautiful long. The Leather Cleaner is specifically developed for cleaning of leather-upholstered furniture. You can clean dirty furniture and remove stains from leather surfaces. Do not wet the leather too much and allow it to dry completely before waxing it. This plentiful balsam is sufficient to protect a five-seat furniture up to 10 times. Protective waxing is recommended 2-3 times per year to prevent the leather from drying out. The package contains a terry cloth, care instructions for leather and product instructions. Familiarize yourself with the product instructions in the product-specific description.
