

Softcare Shoe Protector 300 ml

Softcare Shoe Protector keeps the surface of your shoes dry and clean. An effective protection for all types of leather. Protects shoes with tanned, suede and nappa leather, jackets, bags and other leather gear and accessories. Not suitable for plastic, faux leather or patent leather shoes.

Spray directly onto clean, dry surface and let dry for 2-3 hours at room temperature before taking into use. Test colour durability on a spot that remains invisible. Easy and safe to use; the protection lasts up to months with a single treatment. Does not contain PFOS compounds. Does not affect air permeability of the material other properties. Contains 300 ml.

EAN 6416977712701.
