

Softcare Snail Stop Gel 5 L

AN EFFECTIVE SUBSTANCE FOR REMOVING SPANISH SLUGS

Read more about [Spanish slugs](#).

Instructions for use: You can apply the gel to a patch of artificial grass, rough board, tile or a similar surface that blocks the path of the snails so they come into contact with the gel as they move. The gel can also be applied at the base of a building or a greenhouse. When the snail moves across a surface covered with the gel, it is forced to stop. The dead snails must be disposed of with combustible waste.

Where to use: Garden boundaries Building, other structure and foundation edges Compost heap surroundings.

Ingredients: horticultural soap, ethanol, surfactants, organic solvents, water.

Volume: 5 L

EAN: 6416977714484
