

Softcare Water based shoe protector

Water based shoe protector forms an invisible protection against dirt and water without altering the feel or appearance of the surface. Suitable for leather, suede, nubuck, faux leather and textile shoes.

Directions for use: Shake well and spray onto a dry, clean surface from a distance of 15 cm, and apply the protector evenly using a lint free cloth. Let dry with sufficient ventilation. The protection becomes fully effective in 24 hours. Do a test first on an area that is not visible.

Volume: 300ml

EAN: 6416977713074
