

Softcare Water based shoe protector

Softcare® forms an invisible protection against dirt and water without altering the feel or appearance of the surface. Suitable for leather, suede, nubuck, faux leather and textile shoes. Directions for use: Shake well and spray onto a dry, clean surface from a distance of 15 cm, and apply the protector evenly using a lint free cloth. Let dry with sufficient ventilation. The protection becomes fully effective in 24 hours. Do a test first on an area that is not visible.

Volume: 300ml

EAN: 6416977713074
