

**SOFTCARE<sup>®</sup>**

HELPING YOU LOOK GOOD

### **What is Softcare™ ?**

Softcare is a highly professional, top quality range of products made by Soft Protector Ltd. in our factory located in Espoo, Finland. Our core business is the protection of materials and surfaces. In addition we have developed a range of special cleaners

for clients with a demand for quality products.

We utilize the latest technology in our production. Polymer and nanotechnologies are our tools in making the highest quality products to meet our customers' stringent demands.

### **Softcare™ Textile Protector**

Softcare Textile Protector protects all kinds of fabrics, carpets and upholstery as well as leather against virtually any type of wet or dry stains and soiling. Softcare Textile Protector is one of the most durable protections available on the market. The effect may last up to 5 years.

By prolonging the life of fabric, Softcare Textile Protector cuts maintenance and replacements costs by even 80 % according to our customers' experience.

Softcare Textile Protector is easy to apply on any type of textile material. It is safe to use and the product meets the highest environmental requirements of today.

Softcare Textile Protector has a reputation for protecting many important and prestigious projects, such as parliament buildings, residences of royalty and presidents, castles and first class hotels. Softcare Textile Protector has also been effectively used in luxurious cruise ships, congress centres, elderly homes and other public places. We have protected restaurants, ships, busses, trains and airplanes for 15 years already.

### **Softcare™ Textile and Carpet Cleaner**

Softcare Textile Cleaner is especially developed for upholstered furniture fabrics and carpets. It is easy to use and extremely effective against practically all kinds of dirt. Softcare Textile and Carpet Cleaner has been developed for use on all furnishing textiles to remove the common stains, spots and dirt.

At Softcare we have used only the best, biodegradable raw materials when producing this cleaner. Softcare Textile Cleaner is safe to use. Softcare Textile Cleaner has almost neutral pH. Softcare Textile Cleaner can also be used as stain remover.

### **Softcare™ Textile Refresher**

Softcare Textile Refresher is a new generation refresher for upholstery fabrics, carpets and other interior textiles. Softcare Textile Refresher prevents bad odours associated with mould, along with body odours and many other unpleasant odours with a single spray that will last for months. It also neutralises the unpleasant smell of body liquids.

Softcare Textile Refresher will last even after several washes without losing its effect. Softcare Textile Protector is an effective way to keep your interiors fresh and free from unpleasant smells.

### **Softcare™ Leather Cleaner**

Softcare Leather Cleaner is especially developed for cleaning of leather furniture. It removes all kinds of dirt and stains and keeps the leather soft. With Softcare Leather Cleaner you can remove even difficult stains, for instance ink, grease and chocolate.

Softcare Leather Cleaner can be used on all types of leather surfaces and also on bycast leathers. It is also effective in cleaning plastics and unfinished wood, for example plastic garden furniture.

### **Softcare™ Leather Balsam**

Softcare Leather Balsam keeps leather soft and flexible. The surface of leather should be treated with Softcare Leather Balsam 1-3 times per year according to the humidity of the interior and after a proper washing of the leather. In central heating apartments and in dry climates leather tends to dry surprisingly fast. First it starts to harden and then small cracks appear on the surface. It is important to treat leather with moisturizing balsam every now and then to avoid cracking.

Softcare Leather balsam is made out of clean natural waxes and oils and the composition is balanced specially for the leather. It is safe to use and a very little amount is needed at a time. Softcare Leather Balsam is suitable for all types of leather surfaces.

### **Softcare™ Odor Control products**

Softcare have developed high quality products to eliminate the bad odors of textiles, interiors and vehicles. Softcare products can remove tobacco smells, kitchen smells, smells of moulds, sweat etc.

Softcare odor control does not only eliminate the smell, it breaks down the source of the smell permanently.

**Softcare Textile Protector is one of the most durable protections available on the market. The effect may last up to 5 years.**

### **Softcare™ Glass Protector**

Softcare Glass Protector is a new generation nano technology protector for all types of glass and glazed tile surfaces. The product makes surfaces non sticking and much easier to keep clean and nice looking. Soft Care Glass Protector gives long lasting protection for several years with one treatment. It is easy to apply on a clean surface. Excellent on glass doors, façades, windows, bathrooms and spas.

### **Softcare™ Stainless Steel Protector**

Softcare Stainless Steel Protector is a new generation nano technology coating for stainless steel. It leaves a non sticking coating that protects the surface against stains and fingerprints. The treated surface is much easier to maintain clean and shiny. Softcare Stainless Steel Protector is an excellent product for elevators, kitchens and other places with stainless steel surfaces.

### **Softcare™ Antibacterial Coating for glass and tiles**

A new, revolutionary coating for bathrooms, spas and other areas where high hygiene demands need to be met. Softcare Antibacterial Coating has long lasting effect and it kills all the

common microbes.

Softcare Antibacterial Coating is not only antibacterial but also has non sticking properties assisting in maintenance processes.

Softcare Antibacterial Coating is an excellent product for hotels, hospitals, passenger ships, public places and the food industry including restaurant kitchens.

### **Softcare™ Stone Protector**

Softcare Stone protector is a product that keeps your stone floors and surfaces clean and easy to maintain. Softcare Stone Protector leaves your floors with a non sticking coating that makes stain removing and cleaning much easier. Softcare Stone Protector doesn't change the color of the surface and is not slippery like traditional waxes. Softcare Stone Protector is easy to apply on any type of stone or stone like floors.

### **Softcare™ Stone Cleaner**

Softcare Stone cleaner is specially developed for stones containing lime. Softcare Stone Cleaner cleans effectively and forms a protective coating on stone by reacting with the free calcium. Softcare Stone Cleaner keeps marble and other stones attractive without waxing.

**Surfaces treated with Softcare Professional products are much easier to maintain.**

### **More solutions to your needs**

Softcare also have a range of other special cleaners, non sticking coatings and protective materials. Let us know about your needs and we will find you a solution even if we have to develop a tailor made product.

### **Softcare™ quality**

Softcare products are manufactured under the ISO 9001 and ISO 14001 quality standards. Softcare professionals are highly trained with the latest knowledge of maintenance and protection of materials. We can offer you a solution to most maintenance problems. You can rely on our knowledge of textiles and other materials and be sure that the latest technology is incorporated in our product development.

All Softcare products are tested and meet all the latest requirements both on safety and environmental aspects. We guarantee your satisfaction.
