## Paw and Skin Wax

Curing and protective wax, based on natural ingredients for animal paws and skin. The paws and animal skin is formed with a strong film-like membrane that **protects footings from slippery** as well as from sand, hot pavement, asphalt, ice, salt and sticking of snow and **all kinds of irritations**.

Prevents paws and ears frostbite and protects from low temperatures.

Can be used for dry, cracked and inflamed paws. Quickly absorbs into the skin.

Apply a thin layer of the wax on the dedicated area before walk.

## Odour Control

Softcare Odour Control is a useful and effective odour eliminator for homes with pets. It easily **removes odors and unpleasant pet smells** from textiles, leather and room space which are left by animal secretions, odors and other distracting scents.

This is new generation product which **not only covers the smell, but breaks** down the gas that causes the smell chemically. Effective for all organic odors, can be used eg. for accessories, sleeping platforms, automobile textiles and agility in the halls. Absolutely harmless to pets, long lasting and easy to use.

Instructions for use: First, remove visible dirt and then spray the deodorant directly to the odor source. Wait a few minutes, so that the product has time to act. Repeat the application procedure if necessary.

Packaged in a spray bottle made of aerosol-free recyclable plastic that can be burnt or recycled as mixed waste when bottle is empty.

## Shampoo for animals

Softcare Shampoo for animals is a gentle **sulfate free** fur shampoo for washing animal furs. Suitable for all animals. Softcare **Shampoo for animals is luxurious and gentle**, with exceptionally good lather properties as a sulfate free system. Some animal's fur is very fine and delicate, and for this reason products intended for humans (i.e. regular shampoo) should not be used on animals. The product **does not contain sulfates, fragrances or colourants**.

Instructions for use: Apply and lather on moist fur, starting behind the ears, from the neck to the tail, and down the legs. Avoid getting any shampoo in animal's eyes, ears or nose. For extremely fine and delicate fur dose a small amount of Softcare Shampoo for animals on your hand and mix with water.

Packaged in a spray bottle made of aerosol-free recyclable plastic that can be burnt or recycled as mixed waste when bottle is empty.

# Universal Cleaning Sponge & Hair Remover

Softcare Cleaning sponge is an efficient tool for cleaning and removing hair!

The new material, PVA, **efficiently sucks in the moisture and dirt**. The sponge can be wrung out, leaves no lint or streaks and even cleans without detergents like a microfibre cloth. The **sponge effectively collects animal hair** from carpets and other textiles and efficiently collects dust.

PVA is very durable and thus ecological. The sponge can be washed in the washing machine in 60 degrees. Keep dry and moisten before use. When dry, PVA is antibacterial and does not smell like ordinary sponges. Due to the specific unique qualities the product can last for many years of active use.
